AGENDA ITEM EXECUTIVE SUMMARY

Village Board Meeting

July 23, 2018

Item Title: 2018 Sidewalk Removal and Replacement Project.

Staff Contact: Victor C. Ramirez, P.E. Public Works Director

VILLAGE BOARD ACTION

Adopt a Resolution authorizing the Mayor to execute a contract for the 2018 Sidewalk Removal and Replacement Program between the Village of Roselle and Schroeder and Schroeder, Inc.

Executive Summary:

Each year the Village budgets funds to address sidewalk displacements that could constitute a tripping hazard. Village staff solicited bids for the 2018 sidewalk removal and replacement program. The base bid for the project is for the removal and replacement of the deteriorated sidewalk along Main Street between Park Street and Howard Ave. Recently, most of the colored and stamped concrete accents along this section of sidewalk has deteriorated and is crumbling in several areas. The scope of the project is to remove the stamped/colored concrete and replace it with standard grey colored sidewalk.

The bid specifications also included an alternate bid to perform sidewalk removal and replacement in small quantities (1 or 2 squares) and curb replacements at various locations throughout the Village.

The Village received two bids for the project:

Schroeder & Schroeder	\$40,750.00
Alliance Contractors	\$73,685.00

Village staff recommends that the Village accept the Base Bid and the Alternate Bid for a total of \$40,750.00 from Schroeder & Schroeder.

This year, staff is also exploring options to consider instead of doing everything utilizing traditional removal and replacement for sidewalk repairs. The goal is to address trip hazards as cost effectively as possible. Therefore, the overall sidewalk repair program will also consist of work as follows:

- Concrete wet-cutting: This is a process where a contractor cuts the displacement off at an angle that leaves a slope that is ADA compliant. They utilize proprietary

equipment and can perform this work substantially less than the traditional removal and replacement method. We plan on about \$10,000 for this work.

- Poly-jacking: This is a process similar to mud jacking but is less intrusive and utilizes a polymer jacking component instead of concrete slurry. We plan on about \$10,000 for this work.
- Resurfacing: This is an epoxy/concrete product that is applied to a spalled or surface deteriorated section of sidewalk that does not have displacement; rather surface defects. The pilot project proposed to test this method is in front of the Village Hall. We plan on about \$2,000 for this work.

Overall, we will be spending approximately \$62,000 on the entire sidewalk program.

Implications:

Is this item budgeted? Yes. \$100,000 was budgeted for the Village sidewalk program FY2018.

Any other implications to be considered? None.
