AGENDA ITEM EXECUTIVE SUMMARY

Village Board Meeting

February 10, 2020

Item Title: **Geographic Information System Consortium**

Staff Contact: **Jason M. Bielawski, Assistant Village Administrator**

VILLAGE BOARD ACTION

- 1. Adopt a resolution authorizing execution of an intergovernmental agreement for the Village of Roselle’s membership in the Geographic Information System Consortium.**
- 2. Adopt a resolution authorizing the appointment of the Village’s Director and Alternate Director to represent the Village of Roselle on the Geographic Information System Consortium’s Board of Directors.**
- 3. Adopt a resolution authorizing execution of a Geographic Information System Consortium service provider contract between the Village of Roselle and Municipal GIS Partners, Inc.**

Executive Summary:

Included in the FY 2020 Budget is additional funding for the Village to develop its geographic information system (GIS) by joining the GIS Consortium. The GIS Consortium will allow the Village to deploy GIS enterprise-wide through a propriety comprehensive mapping tool for the use by all employees and the public. Furthermore, employees will be able to view and collect data electronically in the field with mobile devices as well as have access to data analytics. The Consortium creates value for its members by identifying opportunities for minimizing cost and risk through its shared services model whereby staffing, software, and hardware costs are shared effectively across its members. Upon the Village’s membership, the Consortium will consist of 38 municipalities that outsource the operations of the Consortium to a consulting company, Municipal GIS Partners (MGP). Nearby members of the Consortium include Hanover Park, Elk Grove Village, Carol Stream, and Bensenville. MGP provides high quality staffing to all members. Members do not pay annual dues, but apply their entire GIS investment directly to receiving GIS solutions. All intellectual property developed by the GIS Consortium belongs to its members. Every member of the Consortium has a vote on the Board of Directors.

Attached are three documents. 1) An intergovernmental agreement setting forth the Village's membership in the Consortium 2) The appointment of the Village's Director and Alternate Director who will have voting rights on the Consortium's Board of Directors; and 3) A service provider contract between the Village and MGP, Inc., which is the contracted service provider to the Consortium. As stated on page 12 of the intergovernmental agreement, the Village will pay a one-time membership fee of \$8,000 to the Consortium. As outlined in attachment 1 of the service provider agreement, the Village will receive approximately 890 hours of GIS services annually or approximately 75 hours per month at a cost of \$83,711, which is billed monthly. There can be additional costs associated with data development that vary annually based on Consortium decisions, which are estimated to be \$2,500. Any change in the cost for GIS services will be decided by the Consortium in July, 2020 with any rate increases going into effect the following January.

Staff has identified the following outcomes that will be realized through the GIS Consortium: 1) Serving all departments across the Village at a high level by capitalizing on expert GIS staff and shared services, 2) Unifying and centralizing community data to share it more effectively across the organization and with the public, 3) Bringing all available data together based on a property address to improve business processes, 4) Attracting and retaining talented employees by offering necessary technology to make staff more effective, and 5) Laying the foundation for an Asset Management System, by employing data standards and data quality reporting.

Implications:

Is this item budgeted? Yes, the FY 2020 budget includes \$95,000 for GIS services, which was budgeted in anticipation of joining the GIS Consortium. Based on an April 1, 2020 effective date, the Village will spend approximately \$75,000 of the budgeted \$95,000.

Any other implications to be considered?

Statement of Work to GIS Consortium Service Provider Contract

1) General Purpose. The Consultant will perform all or part of the Municipality's geographic information system (GIS) management, development, operation, and maintenance. In addition to supporting the existing GIS program, the Consultant will identify opportunities for continued development and enhancement.

The Municipality will be sharing management, development, maintenance expertise and staffing with other municipalities as a member of the Geographic Information System Consortium (GISC). The benefits to the Municipality include, but are not limited to, collective bargaining for rates and services, shared development costs, and joint purchasing and training.

The Consultant is the sole Service Provider for GISC and is responsible for providing the necessary GIS professional resources to support this entity. The Consultant will facilitate and manage resource, cost, and technical innovation sharing among GISC members.

2) Service Types. The Consultant will provide two (2) service types. The intent of this distinction is to track specific types of investment without overburdening general operation of the GIS program. Many of these services will go unnoticed but are required to sustain the GIS program. The Consultant will employ reasonable professional discretion when specific direction is not provided. The two (2) services types are as follows:

A. Services related to the direct management, development, operation, and maintenance of the GIS required to reasonably support the system.

B. Services relating to the investigation, research, and development of new functionality and capability for the GIS Consortium and its members.

3) Services. The Consultant will provide the necessary resources to support the GIS program. The allocation of these resources will be reasonably commensurate with the level of expertise required to fulfill the specific task which includes, but is not limited to, the following:

B. The Shared Analyst provides technical support to the Site Analyst and the Municipality including trouble-shooting and project implementation. The Shared Analyst is responsible for developing, testing, and managing the GISC shared solutions including the standard data model and processes, centralized databases, and software applications.

C. The Client Account Manager is responsible for the coordination and operation of the program for the Municipality including leadership alignment and reporting, planning and budgeting, resource allocation, and performance management.

D. The Manager is responsible for the overall GISC program including the development and implementation of new shared opportunities based on the direction and instructions of the GISC Board of Directors.

4) Projected Utilization and Service Rates. The service rates set forth below are based on, among other things, the negotiated annual projected utilization of all GISC members. The Consultant shall negotiate annually with the Board of Directors (the “**Board**”) of GISC to adjust the annual projected utilization and service rates for the members of GISC. It is anticipated that the Consultant will submit its proposed annual projected utilization and service rates (the “**Proposal**”) to the Board for approval every year on or about July 31st. Upon the Board’s approval of the Proposal, the annual projected utilization and service rates shall become binding on the Municipality and incorporated into this Contract by reference, which shall automatically become effective on January 1st and remain in effect for the remainder of such calendar year. The approved annual projected utilization and the service rates will be promptly distributed by the Board or the Consultant to the Municipality. Notwithstanding the foregoing, in the event the Board, for any reason whatsoever (including the Board being disbanded) does not approve the Proposal, the Consultant may submit its proposed annual projected utilization and service rates directly to the Municipality by no later than October 1st, and upon written approval by the Municipality shall become effective on January 1st. Consultant agrees that, each year, the new aggregate annual contract value for the Municipality will not exceed the greater of (i) cost-of-living adjustments based on the CPI¹ measured as of the most recent CPI number available prior to submitting the Proposal, or (ii) 3%.
