ATTEST:

Village Clerk

Date: 1/22/2021

Exhibit 1

- Effective immediately and continuing until January 31, 2021, a suspension on water shut-offs due to non-payment pursuant to Chapter 22, Article I, Section 22-23, of Roselle Village Code.
- Customers are required to self-report once to the Village that they are experiencing financial or COVID-19 related hardship to be eligible for the suspension.
- Shut-offs would still be permissible in the following instances: preservation of private property (prevent frozen pipes during winter), known vacant property, or the failure of the customer to self-report to the Village. Additionally, per Village Code, shut offs are allowable for supplying water to another building, improper installation of service lines, failure to pay for a meter, etc. and are not impacted by the suspension order.
- The Village will follow the Payment of Charges in Village Code, but those qualifying for the suspension of shut offs will not be subject to the \$15 shut off notice fee.
- Staff will follow its customary usual practices for issuing Delinquent and Shut-off Notices, which include reference to the suspension of shut offs but also the continuing expectations that go along with the suspension.
- Customers who fail to self-report, don't respond to delinquency and shut-off notices, and attempted contact by Village staff could be shut-off.
- Staff will follow its customary usual practices for working with account holders on implementing payment procedures to ensure all customers can remain connected to water when the suspension expires.
- Nothing in the suspension order abrogates the obligation of a customer to pay for water and sewer including applicable penalties or reduces the amount a resident may owe to the Village as water usage will still be recorded, monthly bills can still increase, and any past due amount can increase.
