

AGENDA ITEM #16

**AGENDA ITEM EXECUTIVE SUMMARY
Village Board Meeting
4/10/2023**

Item Title: **Sale of Surplus Fire Engine**

Staff Contact: Mark Bozik, Fire Chief

NEW BUSINESS

VILLAGE BOARD ACTION:

Provide direction to staff on selling the Village’s surplus fire engine to Itasca Fire Protection District.

Executive Summary:

The Village has purchased a new fire engine to replace the 2003 E-One fire engine, which will be delivered and put into service within the next month or two. In recent discussions with Itasca Fire Protection District, they have expressed an interest to purchase the fire engine in anticipation of them having to open a second fire station on the north side of the railroad tracks due to CPKC merger.

Village staff has researched the current market of the fire engine with two brokers to determine the costs for similar 2003 E-One fire engines. The costs ranged \$40,000 to \$100,000 with comparable engines in better condition, less miles and additional equipment included. When Village staff looked at trading the engine in with our purchase, the broker offered us \$5,000 due to the work that was needed on the frame. Since that time, we have had the frame repaired at of cost of \$16,000. In discussion with our apparatus dealer and others in the field, they feel that the engine is worth \$30,000 to \$50,000 as is. If we use a broker 10% to 15% of the purchase price will go to the broker.

Based on the above information, staff requests direction to negotiate a purchase price with Itasca Fire Protection District for the Village’s surplus engine for between \$30,000 to \$50,000. A broker would need be not used.

Implications:

Is this item budgeted? N/A

Estimated cost: N/A

Any other implications to be considered? Revenue from sale will be deposited into the Equipment Replacement Fund.

Strategic Priority:

Operational Sustainability
