

2022 STREET CONSTRUCTION

Bulletin No. 3 September 20, 2022

The 2022 Watermain Replacement Project has been substantially completed and our Street Program contractor Builders Paving is ready to resurface Woodfield Trail. During construction roads will remain open and driveway access will be maintained unless effected by concrete removals. The Village will work closely with the contractor to minimize the inconvenience to you during the project. Residents can expect varying levels of construction activity between September 26th and October 31st.

This resurfacing generally consists of the following sequence:

1. Intermittent Sidewalk, Curb & Gutter, and driveway removal and replacement.
2. Underground utilities work. (Utility Frame Adjustment, Structure Reconstruction)
3. Asphalt surface removal. (Grinding)
4. Asphalt patching of failed base course.
5. First layer paving with Hot-Mix Asphalt Leveling Binder.
6. Final layer paving with Hot-Mix Asphalt Surface Course.

Prior to any concrete removals that will affect driveway access, our contractor will be notifying affected residents 24 hours in advance to remove all vehicles from their garage and park them on the street. Driveway access will be restricted for approximately one week while the concrete is removed, framed, poured, and allowed to cure. The police will be notified and parking on the street or an adjacent street will be allowed in those cases.

Any property within the right-of-way such as irrigation systems or decorative landscaping that is damaged during construction is the responsible of the homeowner. It is the homeowners' responsibility to mark or flag any irrigation systems within the right-of-way prior to the start of construction.

Keeping residents informed about the progress of the Village's Street Improvement Program is very important to us. In addition to this bulletin, we are posting regular construction updates on the Village's website at www.roselle.il.us/construction. Updates can also be found in the Village's weekly E-News digital newsletter (subscribe at www.roselle.il.us/enews) and on the Village' official Facebook page.

We apologize for the inconvenience created during construction and thank you for your patience and cooperation. For questions or concerns about the construction, access, removal limits or property within the right-of-way please do not hesitate to contact Matthew Rasmussen at 630-671-2366 or e-mail at mrasmussen@roselle.il.us
